

The Silver Star Families of America Commitment to Diversity

The Silver Star Families of America has been committed from its foundation to diversity.

Diversity meaning no discrimination against volunteers from the Board level down: This includes, race, age, gender, physical abilities, political views or religious beliefs.

Diversity also means no discrimination as to the awarding of the Silver Star Service Banner or in the delivery of other services we provide.

But most of all diversity means accepting new and fresh ideas and reaching out to underserved demographics for volunteers and board members.

The Silver Star Families of America represent the melting pot of our armed forces and veterans.

The SSFOA will continue to be actively diversified in all areas of our operations and we will continue to partner with diverse organizations.
